

SPECIFICATION AMENDMENTS

Kindly amend the original filed specification as follows.

Please add the paragraph/section after line 24 in page 3 as follows:

Brief Description of the Drawings

Fig. 1 illustrates sixteen phonetic symbols of a language phonetic system according to a preferred embodiment of the present invention.

Please replace the paragraph/section beginning at page 7, line 5, with the following rewritten paragraph:

The figure below provides a systematic listing of vowel sound phonetic symbols suitable for English learning beginners. As a result, the full sound symbols are incorporated with the full sound instruction symbol “~”. The background of this vowel sound phonetic symbol figure is two concentric circles. On the outer periphery of the outer circle are five full sound symbols “ǎ”, “ě”, “ĩ”, “ǫ” and “ũ”, and five half sound syllables “^”, “^”, “^”, “.” and “<”. In between the two concentric circles are the three full sound symbols “oi”, “oo” and “ou”. Inside the inner circle are the three half sound symbols “_”, “.” and “--”. It can be easily seen that there are sixteen phonetic symbols all together, for easier understanding and memorizing as shown in Fig. 1. ~~The figure is as follows:~~
